November 7, 2017

Last Week's Targets

- MNT: keep on iterate the proofs & simulations til re-sub: 11/8?
- Go over vertex screening again for submission at 11/8-15?
- Miscellaneous: exam of my class, a few job applications and letter check, mgc repo edit readme.

Last Week's Achieved

- MNT: finalized my iteration on sims and proofs. Only one more figure and appeal letter check remains.
- Went over vertex screening simulations and proofs.
- Prepared exam of my class; finished job applications and letters; Eric done mgc repo.

This Week

- MNT: finalize appeal letter and re-submit?
- Vertex screening: finalize experiment and interpretation, arxiv and submit?
- Read random forest and think about consistency.
